## Summary

I'm Linh N.K. Pham, currently a high school student majoring in English at VNU-HCM High School for the Gifted. A curious individual who is highly ambitious about her academics and work experience, I aspire to become one of the best and most enthusiastic in virtually anything I participate in. I thrive in social science environments such as languages, politics or economics but am also intrigued by data analysis and computer science. I hope to pursue a career involved with economics, law, or data analytics in the future.
